RESPONSE TO RESTRICTION REQUIREMENT

SIR:

The Examiner stated in the October 18, 2004 Office Action that the claimed invention contains claims directed to more than one species of the generic invention and that the applicant is required to elect from either claim 3 or 19 one domain with a binding function and elect from either claim 8 or 19 one domain with a protease inhibiting function.

Application No. 09/423,838  
Amendment Dated December 10, 2004  
Reply to Office Action of October 18, 2004

In response, applicants elect to choose with traverse in claim 19 a molecule having a receptor binding function derived from the urokinase receptor binding domain and having a protease inhibiting function from bovine pancreatic trypsin. Applicants reserve the right to prosecute the subject matter of the non-elected claims in a divisional application.
